EXPERIENCE

Adyen, In-house Technical Challenge Winner *Amsterdam, NL • Feb 20*

- Won 1st place out of 28 in Adyen's Open Banking API payment challenge using Postman.

Systems Navigator, Full-Stack Software Engineer *Delft, NL • Apr 19 - Mar 20*

- Substantially increased user and stakeholder satisfaction as it became possible for users to give feedback on a specific feature of a certain release, this potentially saved 1000s of hours of technical support work, by developing an interactive feedback-component for Dropboard.
- Enhanced the user experience as reduced loading time by improving app performance by ~50% by restructuring API using Angular lazy loading, Typescript and JavaScript.
- Developed several features for Dropboard: Implemented JWT authentication between services, developed user-session tracking, fixed bugs, wrote automated unit tests and end-to-end tests using Angular, TypeScript, JavaScript, Python, Django, Django REST framework, Jest, Cypress.

Google Developer Clubs, Software Developer & Contributor *Delft, NL • Sept 19 - Present*

- Accelerated the growth of the club as the number of members quickly grew from 5 to more than 26 by inviting 100s of students from other faculties to learn computer science concepts and technologies.
- Contributed to 4 Workshops: Forming the club, Intro to Flutter, Front-end Day (TypeScript, Angular, Vue), Back-end Day(Django, REST, Serverless Computing)

Marriott International, Corporate Sales Intern *London, UK • Sept 17 - Feb 18*

- Significantly helped quarter-over-quarter revenue exceed target by 10% by developing a tool which made the proposal drafting process ~15 times quicker using Excel formulas.

PROJECTS & LEADERSHIP

Greenly - Modern Desktop App, Product & Team Lead *Jan 19 - May 19*

- Lead a team of 7 developers, designed, prototyped, A/B, unit tested and shipped a sustainable lifestyle promoting activity tracker using Java, JavaFX, Spring, Postgres, awarded with 10/10.

United Colours - Electronic Music Business, Co-Founder *Hungary • Jan 11 - Aug 15*

- Generated close to 200K EUR revenue from entrance fees and beverage sales across 25 events, catering to approx. 15K attendees by being responsible for the end-to-end execution of each event, while also performing in an electronic music duo.
